TWENTY-FIVE PERSONS DEAD.

Passenger No. 16, Eastbound, Runs Into a Freight Train At Young's Point.

Snow Was Falling so Flagman of Freight Was Unable to Make His Signals Seen.

Helena, Mont., Sept. 25,-A special to the Record from Livingston, Mont. says that passenger train No. 16, castbound, which left Helena at midnight last night, collided with a freight train at Young's Point, and that 25 persons, including the engineer, ifireman and brakeman were killed.

Later reports place the number of casualties at from 30 to 40 with 25 Snow was falling, and for this reason the freight train's flagman could not make his presence known to the passenger engineer. The express car telescoped the smoker and practically all the casualties occurred in the car with the exception of the enginemen. Engineer Besinger of the passenger is only slightly injured, but his fireman, Ora Babcock was killed out-

The latest authentic report from the wreck at Youngs Point says 19 are dead and 11 injured, several fatally. Identification of the dead is impossible as yet, and probably never will be complete, as the scene presents an indiscriminate mass of human fiesh and weekage.

NO FURTHER DETAILS. St. Paul, Minn., Sept. 25.—No further details regarding the wreck at Youngs Points, Mont., have been received at Northern Pacific headquarters here than those contained in the Helena dispatches. President Elliott said at noon that he would give out a state. noon that he would give out a state-ment as soon as he received a report on the wreck.

ELLIOTT RECEIVES REPORT. St. Paul, Sept. 25.—The first report on the wreck at Youngs Point, Mont., received by President Elliott's office here states that O. L. Babcock, fireman, jumped from his engine and was killed. Brakeman Milo Halloway was also "Killed." The report says that 19 passengers were killed and 11 injured.

WYOMING COAL STRIKE IS OVER

At Rock Springs This Morning.

Shipments are Already on the Move Although Chicago Conference Has Not Been Concluded.

prediction in yesterday's

"News" that the Wyoming coal strike was practically at an end was fulfilled today. Manager Gunnell of the Central Coal & Coke company of this city, exclusive agency for the Peacock coal mined at Rock Springs, received the expected work this morning that the strikers had been ordered back to work and resumption was a reality, not a hope any longer. The Kemmerer and Glencoe mines are opening and camps throughout the whole state are resuming activities. The strike was of a little over a month's duraiton. Its termination was hurried by the approach of winter. Idleness through the cold spell did not appeal to the workingmen, and it is evident great pressure was brought to bear upon the operators for the general public's good. The meeting between operators and owners at Chicago is still on and just what terms are being made, or have been made, are not known. The fact that the strike is ended and a bad shortage averted by a resumption of the Wyoming fields, is of most importance. the strikers had been ordered back to

New York, Sept. 25 .- With the New York National League club and the Chicagoans, who yesterday fought strenuously at the Polo grounds, the final succeeding game of their series. playing on either side of the East iver today, the local enthusiasts were again out in full force. The Cincinnati's were today opponents of the New York's and Brooklyn was enter-taining the western team across the buildre.

bridge.
With Chicago and Pittsburg tied in bridge.
With Chicago and Pittsburg tied in second place and New York's lead maintained by yesterday's 5 to 4 victory, the followers of the home team are now speculating as to just what will be the ultimate fate of President Pulliam's ruling Wednesday, making a 1 to 1 tie of the game, in which Merkle is alleged to have foregone the formality of touching second base when he saw that McCormick was home. There is also much discussion of yesterday's phantom game, which Chicago claims was forfeited by New York. In case the Giants win the pennant, these two games will doubtless go on their interest; but in case New York needs a game after all, President Pulliam and the directors to whom formal appeal may be made, will be strongly in the limelight.
Fifth inning—Cincinnati, 3; New Fifth inning—Cincinnati, 3; New York, 1.

Boston, Sept. 25.—Although the Boston National league baseball team is in sixth position in the pennant race, to-day's doubleheader with the Pittsburg day's doubleheader with the Pittsburg team attracted unusual interest, inasmuch as on its outcome partially depends second place in the race. At present both Pittsburg and Chicago are fied for second place with a standing of 625. If Chicago wins its game with Brooklyn, it will be necessary for Pittsburg to win both games with Boston in order to have a lead. If Chicago loses in Brooklyn and Pittsburg breaks even with Boston, the Pennsylvania team would then have a slight lead over its western competitor.

IOWA GIVES WELCOME TO JUDGE W. H. TAFT.

Clinton, Ia., Sept. 25.—lowa welcomed William H. Taft early this morning and will listen to his voice throughout the day as his special train touches at Clinton, Davenport, Muscatine, Wapella, Burlington, Ottumwa and Des Moines.

Gov. Cummins headed a committee of escort, which also had as a member John F. Lacey, who is the governor's opponent for the United States senate, and other party leaders.

Mr. Taft's voice which troubled him much yesterday, was in decidedly bet-

much yesterday, was in decidedly better condition when at 8 o'clock he addressed a large crowd in Dewit Park at Clinton. The candidate devoted himself to the labor question, reitering what he has heretofore said on the subject, by holding up the Republican legislative record in comparison with legislative record in comparison with Democratic promises, and finally pledg-ing himself to do everything in his power, if elected, as he expressed confidence he would be, to put labor on an exact equality before the law with all other citizens.

Gov. Cummins preceded Mr. Taft in

address in which he pledged the national ticket his most hearty support.

LESLIE CARTER DEAD.

Chicago, Sept. 25.—Leslie Carter, one time capitalist and president of the South Side Elevated Railroad company of Chicago, died in this city after a prolonged illness.

Death occurred today. Mr. Carter has not been active in business for some years. He suffered a stroke of paralysis a few years ago and recently his system became poisoned from the fumes of gas which, presumably by accident, had escaped into his room. A month ago he was declared mentally incable of caring for his estate, and a conservator was appointed. cedent was a lawyer, but devoted him-self chiefly to commercial pursuits. INTERNATIONAL CONGRESS ON MORAL EDUCATION.

London, Sept. 25 .- The first interna tional congress formed to direct the progress of moral education was opened today at the imperial institute under the presidency of President Michael Ernest Sadler, professor of history and administration of education in the Victoria university of Manchester. The object of the congress is to secure the co-optration of the various governments for the improvement of the moral education offered in schools and ernments for the improvement of the moral education offered in schools and 17 nations, including the United States, were represented officially. Prof. Sadler in welcoming the delegates laid emphasis upon the special indebtedness of the world to educational thought and experiments in the United States.

SENATOR GORE ON HASKELL CONTROVERSY.

Seattle, Wash. Sept. 25.—"I think the governor is amply able to take care of himself. In my opinion the president has tackled the wrong man, and will get the worst of it before the controversy is over," said United States Senator Gore of Oklahoma. If the answer was not satisfactory you may depend upon it Gov. Hirskell will make it so. Everybody in Oklahoma knows of the Prairie Oli and Gas company, and that it is a branch of the Standard Oli company, there never has been any doubt of it. The governor instituted proceedings to hve the injunction against the company dismissed which was done, and his action has been sustained by the state supreme court. The attorney-general exceeded his authority in the absence of the governor, and has no right to have brought the injunction proceedings.

"Gov. Haskell vetoed a child-labor law because it went to such extremes that it should have been vetoed, and the governor's action in doing so met with approval from all labor unions."

WILBUR WRIGHT MAKES VERY SUCCESSFUL FLIGHT.

Temans, France, Sept. 25.—Wilbur Wright, the American aeroplanist, made a flight at the field of Auvours this morning that lasted for 36 minutes and 14 seconds. He covered 22 miles at an average height of 45 feet. He came to the ground because of the gasoline the ground because of the gasoline tanks, which had not been firmly closed, leaked. The distance made by Mr. Wright yesterday, when he flew for the Michlein and Aero club prizes, has been officially recorder at 39,95 metres (a little over 24 miles). Mr. Wright denied today again that he had ordered a more powerful motor for his machine. He is inclined to think that 25 miles an hour will be the maximum aeroplane speed for some years to come. The friends of Mr. Wright in France are trying to persuade him to the across the English channel on the ground that such a feat would furnish the best cyldence of his absolute confidence in his machine.

BRYAN TRAVELING THROUGH HOOSIER STATE.

Chicaga, Sept. 25 .- While William J Bryan was working his way through Indiana toward Chicago today, and Gov. Haskell, the Democratic treasurer, was a passenger on a Santa Fe train bound for the same city, little was said at Democratic headquarters concerning charges made against the national treasurer.

The allegations of President Roose The allegations of President Roose-velt and William R. Hearst, reflecting on the fitness of the Oklahoma execu-tive to hold positions of public trust were not discussed, save in a negative way, with reporters. Josephus Dan-iel, chairman of the Democratic Press committee, had heard nothing, he sald, of any resignation by Gov. Haskell. of any resignation by Gov. Haskell.

There was a repart, which could not be confirmed, that Mr. Haskell, would meet the Bryan special on its way from Terre Haute, Ind., to Chicago tonight, but the general belief was that the conference between the two leaders would not occur until Mr. Bryan arrives in this city tomorrow morning. Gov. Haskell is due here at 8 o'clock tonight. tonight.

WHAT WOMEN HAVE TO SAY. TAKES FLING AT PRESIDENT. HUNT FOR A SUBTERFUGE.

One Claims to be a Citizen and Taxpayer and Defies Authorities to Make Her Move.

"Any old place I can hang my hat is home sweet home to me." The soft refrain is being sadly sung by Commercial street parasites, women of the town and frequenters of low Commercial street saloons today.

The streets where the brilliant lights glowed, the houses wherefrom issued sounds of revelry and ribald songs, the dives where strangers were made mad with drink and then robbed, presented an entirely different appearance last night and today. The lights were out. The houses were closed. The loafers were not to be seen. The parasites were without their "meal tickets."

On Commercial street, or situated so they have drawn revenue from that nother than not they have drawn revenue from that nother harms.

they have drawn revenue from that nothey have drawn revenue from that no-torious thoroughfare and contributed their quota of vice, there are 14 sa-loons. The raids made by the county authorities proved knockout blows to them. Their craft is in danger. Busi-ness is at a standstill and the wolf is gnowing at the door. A policeman who walks Commercial street said this morning.

"MURDER ROW" HIT HARD. "There are 14 saloons on Commercial street. Last night the place was in darkness, the houses closed and it is safe to say that no saloon took in

safe to say that no saloon took 'n more than \$2 last night."

Hence the great clouds of gloom, so thick they could be cut with a knife, hovering over the tenderloin.

Last night deputy sheriffs kept closs watch upon houses of ill fame.

One "landlady" turned on the lights. She was immediately notified that it would be a case of darkness or the county jail. The lights were turned off. The raids have played havoc with denizens of Commercial street and Victoria alley but those hardest hit are the parasites. The white and black loafers who live from the crimes of fallen women. They are without meal tickets, men. They are without meal tickets, Skulking they sneak from one dark doorway to ahother, muttering imprecations against the agents of law and order but too cowardly to show their

order but too cowardly to show their evil faces,

Some of the "landladies" are a bit defiant. Some of them own considerable property and are reluctant to part with the same. None of them own real estate in the tenderion but they own much valuable furniture and have considerable money invested in their places of vice.

One prominent Commercial street woman said this morning:

"I have little or nothing to say about the crusade. I have been here for years and have occupied the same place. The house is closed and I suppose will remain closed indefinitely. I don't know. There have been no com-

don't know. There have been no com-plaints about this place but the trouble has been caused by the street walkers and women thieves who have infested the street. They have caused the trouble and not places like this."

REFUSES TO MOVE.

Another woman, proprietor of a hous of ill fame, was most indignant. "Me move? Well, I guess not," said she. "Who has a right to tell me that I shall leave the city or go to a new 'district'? I own property in this city. 'district'? I own property in this city. I pay taxes and am a citizen, and I don't propose to get out or move into some other district unless I want to. I have fulfilled every requirement demanded by the city administration and will stay here as long as I wish. Of course, if the authorities are determined to close up the houses they will be closed up and we will have to suffer the consequences, but if the officers will pay more attention to the hop-head niggers and the female nigger dips who nob people right and left and get them rob people right and left and get them out of town or in jall where they be-long there wouldn't be such a big

HARD ON EXPRESSMEN.

Local railroad ticket offices are exasperated with the repeated failures of several local papers to realize that the new baggage checking arrangement described in yesterday's "News" is not without a cent's cost to the public. Travelers pay draying charges, but their baggage is handled from their home to any station in the United States. The assertion that no charges are made is absurd in itself. A traveler buys his railroad ticket and pays who taver charge draying make on whatever charge draymen

baggage hauling from residence or ho-tel to the depot.

The Oregon Short Line took the initiative in adopting this up-to-date idea in the west. The Salt Lake Route, Rio Grande, Southern Pacific and other important western lines have fallen in-

Discussion has been centered on the effect the innovation will have upon expressmen. That it will take business away from the small drayman is not denied. For instance, the Salt Lake Transfer company is under bonds to the Rio Grande to haul baggage and express in a satisfactory manner. No small expressman with a horse, a wag-on and a street corner, constituting his all, could furnish any big bonds with a railroad company.

"I notice." the governor went on, "that Secy. Garfield has taken a hand in the matter of the Prairie Oil company. He ought to know the matter very well, for I took occasion to call him down last summer when he tried to give the oil company special privileges in laying the interstate gas line."

WALLY YOUNG IN TOWN.

Comic Opera "The Kingmaker," to Be Produced by the Shuberts.

Waldemar Young, known in the days of his newspaper career in Sait Lake as "Wally" Young, is a visitor in the city today, en route from New York to San Francisco, where he is dramatic editor of the Examiner, and incidentally author of "The Kingmaker." a musical comeo, much of which was prepared in the rooms of the Sait Lake Press club, when Mr. Young was joint author with no late Race Whitney of the Press club's production of "The Old Bedstead." "The Kingmakers" has been on the tapis in New York, where Eddy Foy will in all probability be given the leading role under the direction of the Snuberts, for the latter well known amusement caterers have definitely closed with Mr. Young for the production.

Mr. Young has been busy today shaking hands with old friends and tomorrow will leave for the coast. He is at present at work on another opera, this time by himself without collaboration. "Plays are not written." he said this afternoon. "They are built, and the problem is not so much a literary one as one of creating and corelating dramatic situations and incidents."

It was eight years ago that Mr. Young left Sait Lake to try his fortunes in a larger city after newspaper experience commenced here. He went first to Stanford unievrsity, where he wrote and produced an entirely successful college farce, then to the San Francisco Chronicle, of which he became sporting editor. Earthausked out of the city in 1966 he came to Sait Lake for a summer and then went back to become dramatic critic of the San Francisco Examiner, a position which he still holds. of his newspaper career in Salt Lake as "Wally" Young, is a visitor in the

To secure it they have seized the most handy hiding place, and have tried to find it behind Police Judge C. B. Case discounts dose arrested and tried have been bound over or sentenced. Cases dis-missed were on motion of the "Amer-ican" city attorney. Where, then, is the point of faisification in giving forth the decErrations made by the Tribune this morning? Did City Re-corder J. B. Moreton give out false in-formation or did the Tribune itself belie the record?

the record? The records in state cases for the past 30 days were carefully gone over by a "News" reporter, and Clerk by a "News" reporter, and Clerk George M. Gutch. They show that 75 cases were on the docket. Of this number 9 were dismissed upon motion number 9 were dismissed upon motion of the county attorney, or one of his assistants. One was tried and found guilty. One pleaded guilty and was bound over to the district court. One was found not guilty and discharged. One was discharged because of lack of evidence, and the assistant county attorney stated in open court that he did not ask for a conviction. The balance of the cases were continued upon motion of the prosecuting attorney. One case, that of Ray Sundberg, charged with assault with a deadly weapon, was dismissed by Judge Diehl upon the court's own motion, and it is in the record that the case was dismissed because there was no one there missed because there was no one there to prosecute. Sundberg was under ar-rest for one month and five days.

CITY CASES.

In the city cases the record will show that about 98 per cent of the complaints against the victous element have been disposed of by mo-

This morning, E. A. Rogers, assistant city attorney who prosecuted the cases in the police court, admitted that not more than 3 per cent of these cases have been tried. The cases have either been dismissed or the accused were permitted to plead guilty and were given "floaters," But the cases have not been tried.

DIEHL'S STATEMENT,

Judge Diehl was asked for a state-ment in reply to the attack made by the Tribune this morning, and said: "If Chlef Pitt is correctly quoted, he is not familiar with the workings of his department, because the records of the court will show that 97 per cent of the cases which have been brought before the court of what been prought before the court of what the Tribune terms the vicious ele-ment, have either been dismissed on motion of the city attorney, most often at the request of some member of the police department, or have, at the suggestion of the arresting of-ficer, pleaded guilty and upon the particular request of the city attor-ney been permitted to leave the city,

CONVICTED WHEN TRIED. "Of the remaining cases, or those which were permitted by the American police force to be tried, the records of the court, which are always open, will show that a very large ma-jority were convicted."

One of the court officials said, in

"Do they expect a court to find a person accused of crime, guilty before being tried? Is the court supposed to know all the facts in a case before the matter is properly tried and evidence introduced? Are not the proseculing attenuate and the the matter is properly tried and evidence introduced? Are not the prosecuting attorneys paid to handle the cases, furnish the evidence for the prosecution and present the same to the court? If charges and arrests are made and the cases are either dismissed or continued upon motion of the prosecution, or if so-called 'floaters' are given at the resuest of the prosecution, what is the

quest of the prosecution, what is the court to do?" VIEW OF ROGERS. Assistant City Atty. E. A. Rogers

"I will admit that not over 3 per

cent of these particular cases have been tried. Not many of them have been dismissed, but 97 per cent of them have been disposed of by the them have been disposed of by the accused pleading guilty and given a chance, upon motion of the prosecution, to leave town."

The records were gone over carefully for the past 30 days. They show an average for the 12 months in the year. This morning there was but one state case called on the docket, and that was dismissed upon motion of the assistant county attorney. one state case called on the docket, and that was dismissed upon motion of the assistant county attorney. State cases are now set up to Oct. 21. Clerk Gutch is responsible for the statement that for some weeks cases have been called day after day, but rarely prosecuted, and the court records clearly show that a majority of the cases which have been tried, convictions or an order binding the defendants over to await the action of the district court have resulted. But most of the cases have either been continued with or without date, or dismissed and always upon motion of the prosecuting attorney. It is true that the court may uccline to dismiss a case at the request of the prosecution, but it is not expected that a fair-minded court is supposed to know the facts in a case until the facts are set forth by evidence and in a manner prescribed by law.
